Calendar and thematic plan OF PRACTICAL CLASSES in the discipline  
"ANATOMY" for 1st year students of the Institute of General Medicine for the  
summer semester of the 2022-2023 academic year

№ п.п.	Topic of the practical lesson
1	Introduction to the study of the nervous system. Anatomy of the spinal cord.
2	The rhomboid brain.
3	The middle brain. Diencephalon. III ventricle.
4	Anatomy of the cerebral hemispheres: basal nuclei, white matter. The membranes of the brain and spinal cord, the formation and circulation of the cerebrospinal fluid.
5	Overview of the conducting paths.
6	The meninges of the brain and spinal cord, the formation and circulation of the cerebrospinal fluid.
7	The organ of smell. The organ of vision. The conducting path of the visual analyzer.
8	Hearing organ: outer and middle ear.
9	The inner ear. Conducting pathways of the auditory and vestibular analyzers.
10	The oral cavity.
11	Anatomy of the hollow organs of the digestive system: pharynx, stomach, small and large intestine.
12	Anatomy of parenchymal organs of the digestive system: liver, pancreas. Bile ducts.
13	Peritoneum: general characteristics, derivatives. Topography.
14	Anatomy of the respiratory system: upper respiratory tract.
15	Anatomy of the respiratory system: lower respiratory tract.
16	Anatomy of the urinary system.
17	Anatomy of the genital system
18	Final lesson.
