

**Plan of a CLINICAL PRACTICAL STUDIES (CPS) of the third-year  
students of foreign student's faculty (bilingual program)**

- CPS. 1** Acquaintance with the work of the therapeutic department. Examination of the patient.
- CPS. 2** Questioning of the patient with respiratory diseases. Chest inspection. Chest palpation. Thoracentesis. Spirometry.
- CPS. 3** Lungs percussion.
- CPS. 4** Lungs auscultation.
- CPS. 5** Examination of patients with cardiovascular diseases: questioning, inspection, palpation. Pulse and its characteristics.
- CPS. 6** Heart percussion.
- CPS. 7** Heart biomechanics. Heart auscultation. Heart sounds.
- CPS. 8** Heart auscultation. Heart murmurs. Echocardiography.
- CPS. 9** Palpation of the abdomen.
- CPS. 10** Examination of patients with gastrointestinal diseases.
- CPS. 11** Examination of patients with liver, gallbladder and pancreas diseases.
- CPS. 12** Main clinical syndromes of the liver and gallbladder diseases.
- CPS. 13** Examination of patients with kidney and urinary tract diseases.
- CPS. 14** Main clinical syndromes of kidney's diseases.
- CPS. 15** Examination of patients with blood system and endocrine system diseases. Main clinical syndromes.
- CPS. 16** Control of practical skills.
- CPS. 17** Writing of the patient's file (medical history).
- CPS. 18** Examination of patients with bronchitis, chronic obstructive pulmonary disease, pneumonia, pleurisy.
- CPS. 19** Heart failure.
- CPS. 20** Instrumental methods of examination of patients with cardiovascular diseases. Electrocardiography. Normal ECG.
- CPS. 21** ECG diagnostics of myocardial infarction. Heart arrhythmias.
- CPS. 22** Atrial fibrillation and atrial flutter. Atria and ventricular hypertrophy.
- CPS. 23** Heart blockades.
- CPS. 24** Coronary artery disease. Angina: clinical and instrumental diagnostics.
- CPS. 25** Coronary artery disease. Myocardial infarction. Acute coronary syndrome.
- CPS. 26** Arterial hypertension. Symptomatic hypertension.
- CPS. 27** Rheumatic heart disease. Infective endocarditis.
- CPS. 28** Valvular heart disease: mitral stenosis and insufficiency, aortic stenosis and insufficiency, tricuspid insufficiency.
- CPS. 29** Gastritis. Peptic ulcer disease.
- CPS. 30** Chronic cholecystitis and pancreatitis. Hepatitis and liver cirrhosis.
- CPS. 31** Glomerular diseases. Tubulointerstitial diseases.
- CPS. 32** Final study. Control of practical skills.
